

## AREA OF RESCUE SIGNAGE OVERVIEW

Cornell's Signs are in compliance with the ADA Accessibility Code, NFPA 101 Life Safety Code, and all building codes. Signage is required in three areas.

### ROOM ENTRY SIGNAGE WALL MOUNTED / REQUIRED BY ADA

SN-P48SL - Rescue  
SN-P48GL - Refuge

#### • Wall Mounted

The raised text and Braille sign utilizes \*Photoluminescent technology and will glow in total darkness. This sign includes 1/32" raised text and Braille in compliance with the ADA Accessibility Code and the NFPA 101 Life Safety Code. Available with either Rescue or Refuge text.

### ROOM ENTRY SIGNAGE CEILING MOUNTED / REQUIRED BY ADA

SN-LM42S - Single  
SN-LM42D - Double  
SN-LM42SR - Single Refuge  
SN-LM42DR - Double Refuge

#### • Ceiling, Flag, or Wall Mounted

The \*Photoluminescent sign is available with either Rescue or Refuge text in either single or double sided. "R" is added for Refuge option.

*\*Photoluminescent material stores natural and artificial light in order to emit a glow for up to 8 hours.*

Refuge  
SN-B42S      SN-B42SR  
SN-B42D      SN-B42DR  
SN-E42S      SN-E42SR  
SN-E42D      SN-E42DR

#### • Lighted Ceiling Mounted Sign - Basic

The basic powered sign runs on 120VAC or 277VAC. The LED lights are designed for constant uniform illumination. Available in single or double sided with or without battery backup. Assembled with high impact plastic. Available with either Rescue or Refuge text. A custom metal sign is also available. "R" is added for Refuge option.

SN-B48DS - Rescue  
SN-B48DG - Refuge

#### • Lighted Ceiling Mounted Sign - Edge Lit

The LED Edge Lit signs are brighter and therefore make the Area of Rescue easier to locate. Available with Rescue or Refuge text double sided for all applications.

## CALL STATION INSTRUCTION SIGNS / REQUIRED BY ADA

SN-C48

The Instructional Sign utilizes \*Photoluminescent technology and is designed to glow in total darkness. The sign is wall mounted with engraved text, features an area to label the location, and includes Braille "Push for Help" immediately under the header.

## DIRECTIONAL SIGNS / OPTIONAL IN MOST JURISDICTIONS

SN-P42RR - Refuge  
SN-P42R

The Placard Directional signs are a simple means of directing those needing aid to the Area of Rescue. Available with Refuge or Rescue text and right or left pointing arrows. "R" is added for Refuge text.

SN-P42L  
SN-P42LR - Refuge

## SUMMARY

The above signs are required by the ADA when installing an Area of Rescue or Refuge System. **CORNELL** also provides the Area of Rescue / Refuge System. Contact us to assist you in selecting the best system for your facility.
